Run Graphical Process Modeler

Create

Process Definition

Search

Process Name:

List

Alphabetically: ALL

Using the Manager Page

The Manager page enables you to create and locate business processes. Use this page to:

- Run the Graphical Process Modeler. Click **Go!** next to **Run Graphical Process Modeler**.
- Create a new process definition. Click **Go!** next to **Process Definition**.
- Search for a process definition. Type part or all of the process definition name in the **Process Name** field and click **Go!**
- List all process definitions or list specific definitions based on the first letter of the process name. Click the down arrow next to **Alphabetically**, make your selection, and click **Go!**
